Attorney's Docket No.: 07334-312001

REMARKS

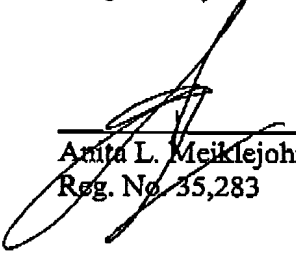

The claims have been amended essentially as suggested by the Examiner in the July 25, 2005 telephone conference with Applicants' representative. It is noted that the Examiner agreed that the phrase "wherein a U is substituted for each T" in claim 34 is unnecessary because one of ordinary skill in the art would understand that "mRNA comprising the nucleotide sequence of SEQ ID NO:3" would actually have U's in the place of the T's depicted in SEQ ID NO:3.

Conclusion

Applicants believe that the claims are in condition for allowance. Please apply any other charges or credits to deposit account 06-1050.

Respectfully submitted,

Date: 29 JULY 2005
